Mission

We are the governing body of labor public policies, employment and human talent of public service, which regulates and controls the enforcement of labor obligations through the execution of effective, efficient, transparent and democratic processes framed in integral management models, to achieve a decent quality and solidarity work system in order to accomplish social justice in equal opportunities.

Vision

By 2018 we will be a national and international reference as the institution that promotes decent work with equal opportunity and treatment, leads the development of human talent, institutionalizes social dialogue and promotes democratic self-organization, with fast processes and highly qualified personnel to provide quality services and warmth, promote a labor culture and ensure the fulfillment of individual and collective rights of labor citizenship.
