Mission

Strengthen labor policy through the promotion of investments, through an economy which is increasingly more competitive, which generates more quality jobs in the formal economy and that allows the development of labor relations based on productivity and a fairer distribution of the products of work and favor the conciliation of interests between the factors of production in the contractual and salary revisions and in the attention of the collective disputes, with the goal of maintaining labor peace.

Vision

A Secretariat of Labor and Social Welfare sustained by three core guidelines: promotion, conciliation and legality, in the framework of a modern labor legislation that facilitates the access of more youth, women and senior citizens to the labor market of our country with respect to the fundamental and collectives rights of workers, expressed in Article 123 of the Constitution; that strengthens the workforce and makes it more competitive to award productivity without damage to individual and collective rights of workers that promote labor inclusion of vulnerable groups.
